

Imagine what you would
do with a **great WiFi**

Each company is different. From its employees to the dreams it pursues.
However, they all need something: the **best WiFi**.

Technology was made to bring us closer and for more than 15 years we have
remained faithful to that promise: to provide **the best service and connect
millions of people.**

About Us

98%

Warranty Service

We operate under an SLA contract 98% and an SPL of 94.

24/7

24/7 Customer Service

We have NOC, IT Concierge and Call Center to follow up and customized solutions.

MSS Managed Service and Support, our business model guarantees the ideal infrastructure to cover your needs with the advice of technological experts, coverage, the best service in the market without initial investment or fixed monthly fees.

Establishments that have their own network infrastructure, generate annual expenses of 30% of the initial investment, which are destined to the payment of maintenance, personnel, guarantees, technical support and customer service.

After three years, the infrastructure is obsolete and customer demand is greater than the installed equipment.

s^oresidential
